

November 8, 2009

Prof. Matthew Ohland
Purdue University
Neil Armstrong Hall of Engineering
701 W. Stadium Avenue
West Lafayette, IN 47907-2016

Dear Prof. Ohland:

Congratulations! The development of **Comprehensive Assessment of Team Member Effectiveness and TeamMaker** is quite an accomplishment. We are proud to recognize it as the *Premier Courseware of 2009*. We would like to congratulate you on your efforts in developing educational technology to enhance your students' learning process. We also thank you for your hard work in preparing your submission for the competition.

The *Premier Award* is sponsored by John Wiley & Sons, Microsoft Research, the MathWorks, Autodesk and TechSmith. As you probably know, NEEDS—A Digital Library for Engineering Education, John Wiley & Sons, Inc., and the Synthesis Coalition developed the *Premier Award for Excellence in Engineering Education Courseware* to recognize high-quality, non-commercial courseware designed to enhance engineering education.

The judges, NEEDS and the Engineering Pathway, and the sponsors wish you the best in your future use of technology to enhance learning. If you have any further questions, please contact Joseph G. Tront, *Premier Award Editor*, at jgtront@vt.edu.

On behalf of the *Premier Award*,

Brandon Muramatsu
