(Hover mouse over hours with partial availability above to see which team members are available)

- Your students will view their team schedule according to their individual time zone. The two students shown here are on the same team, but their schedules look different because they are in different time zones. The meeting times have been adjusted for their time zone.
- Students update their time zones through "My Profile" on their home page.
- Any student who does NOT update their time zone will automatically default to that of their instructor.
